

They say "imitation is the highest form of flattery", but in my book, flattery still gets you an imitation, not the real thing. The only place to get the real thing is at WabFab Off-Road. I am so confident that my Slider Adapter is the best, if you ship me your imitation made by another manufacturer, I'll ship you the real thing, a bare WabFab Off-Road Slider Adapter free of charge. Often imitated...NEVER duplicated.

Contact me via the website for details.

Slider Adapters and Wabbit's Feet are now kept in stock bare and ready to ship and powder coated to order. I do not powder coat but on the weekends so orders requiring powder coating will take longer. For more information about our Slider Adapter and the latest new product, the Wabbit's Foot, please visit our [Slider Adapters](#) page.
